

# Event URL

When you create an Event in Open ACU, each Event will have its own unique Event URL which you can share on your website, social media, email newsletters, etc.

To see your Event URL, go to the Event date on the calendar. Under the Event information heading, you'll see a Event URL link:

The screenshot shows a calendar interface. At the top, it displays 'Today Sat, Jun 6th 2026' with a refresh icon and a notification badge '1'. Below this is a location pin icon and the text 'Main Street'. The main event card is titled 'Beginner Qigong Series' and lists dates 'Jun 6, 13, 20, 27 2026'. It specifies 'Starts at 8:00 AM' and 'On Zoom'. The instructor is 'Dr. Bone'. The event is marked as 'Public' and shows 'Total 2 | Max 20'. At the bottom of the card, there is a link for 'Event URL' with an external link icon. An 'Edit' button is located in the top right corner of the event card.

The Event URL will be housed on the Events page on your patient portal, and will contain all the information about your Event you entered when you [created the Event](#):
