

# Manually changing credit/debit and token balances

**Note:** to see how to add tokens, credits or debits to a patient account during a checkin or purchase transaction, please see [Purchasing Tokens and Credits](#).

You can manually add tokens, add credits and debits, and change account balances on a patient's account from the [Patient Profile](#) page.

## Manually changing account balances

You can manually change an account balance - for example, waiving a cancellation fee - from the [Patient Profile](#) page. Under their name, you'll see Credits - click that to expand the credits window, which includes their credit history:

## Deleting tokens

Note: if a patient chooses to pay for treatment with a token, the token will automatically be deducted from their account during the checkin transaction. For more information, please see [The Checkin Transaction](#).

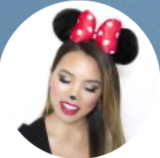

To manually delete tokens from a patient's account, follow the instructions above for manually adding tokens. Instead of entering a positive number (i.e., 5), you'll enter a negative number for the amount of tokens you want to delete (i.e., -5). Once you click Add, their account balance will be updated.

## Adding credits

**Note: to see how to add credits to a patient account during a checkin or purchase transaction, please see [Purchasing Tokens and Credits](#).**

You can manually add dollar amount credits to a patient's account from their [Patient Profile](#) page. Under their name, you'll see Credits - click that to expand the credits window, which includes their credit history:
