

Saving Block Styles and Using Them

Any block can be used as a template of sorts, saving that block as a block style. Block styles include the practitioner, the service options, the start to finish times and any coffee breaks included. This is intended to make it easier to make blocks and to have fewer errors.

To create a block style

- Locate a block you want to save. It should have the start and finish times, Service choices, practitioner and coffee breaks you want.
- Click the stacked plus icon in that block's edit icons.    
- In the popup form give it a unique and descriptive name and click save.
- Now, when you create a new block the option of using your saved block styles is available.

Add Saved Block

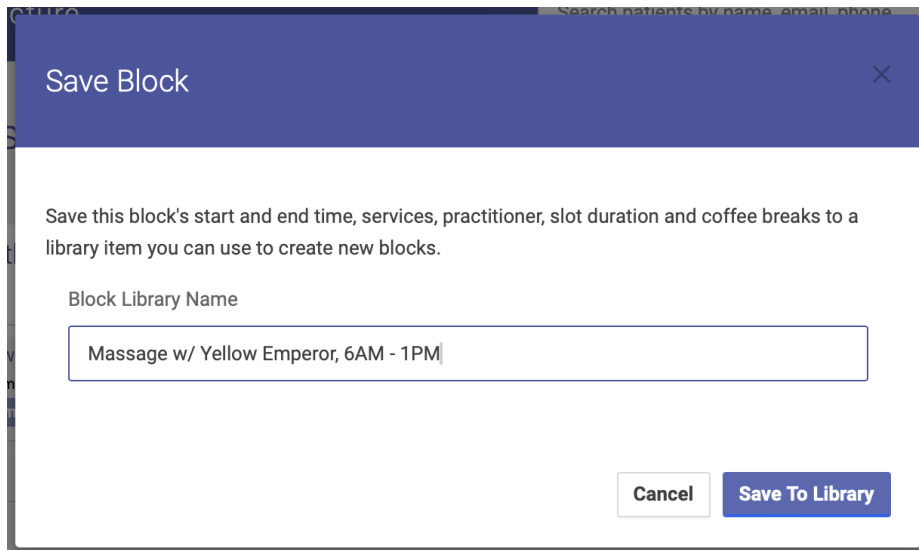

> Create A New Block

You can save any existing block to be used again on any other day or location. This includes the

practitioner, Service options, start and end times and all coffee breaks.

To Save a Block for Later Use

- Find a block in your schedule
- Click the [+] sign in the block header on the right. 
- Give your block a unique and descriptive name (max 80 characters)
- Click Save

The screenshot shows a 'Save Block' dialog box with a dark blue header and a white body. The header contains the text 'Save Block' and a close button (X). The body contains the following text: 'Save this block's start and end time, services, practitioner, slot duration and coffee breaks to a library item you can use to create new blocks.' Below this is a label 'Block Library Name' and a text input field containing 'Massage w/ Yellow Emperor, 6AM - 1PM'. At the bottom right are two buttons: 'Cancel' and 'Save To Library'.

To Use a Saved Block

- Go to the day and location where you want to create the block.
- Click the [+] at the top right of the day header 
- Select "From Saved Block Styles" to open the selection form (Create New Block is opened by default).
- Choose the block style you want to insert
- Click "Add Saved Block"
