The Open ACU Patient Portal

Your patients can interact with their account and your clinic through the Open ACU Patient Portal. This is a secure website specific to your clinic.

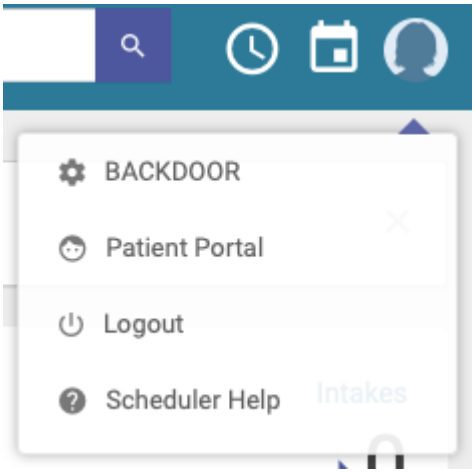

The Patient Portal URL

The specific URL for your patients is based upon your **account name**. You can derive your account name from the URL of your admin. If, for example, you login to your admin at https://ACCNAME.openacu.net "**ACCNAME**" is your account name.

The patient portal URL is https://ACCNAME.openacu.me , where **ACCNAME** is your account name.

Go to the Patient Portal directly from your admin

Once you've logged into your Open ACU admin, you can go directly to your Patient Portal from the user menu in the top right.
