

# EHR Appointments Page

The EHR Appointments page is where practitioners can enter their EHR notes. Notes can also be entered on the [EHR By Block page](#).

Select your date range, location and practitioner and click Search to show a list of appointments:

The screenshot displays the 'EHR Appointments' interface. On the left, a search panel titled 'Search Appointment Health Records' includes date range buttons (Today, This Week, Last Week, This Month, Last Month, Year to Date, Last Year), two date input fields (2020-07-01 and 2020-07-31), location and practitioner dropdowns (All Location and Alexa Hulsey), and a Search button. The right side shows 'Search Results' with 11 appointments found. Two results are visible: one for 'Donald D Duck With Alexa Hulsey' at 9:00 AM on Jul 27th 2020, noting 'No needles in head', and another for 'Mickey Mouse With Alexa Hulsey' at 9:10 AM on the same date, showing a private note, symptoms (Tinnitus), and a plan. A 'Lock' button is present at the bottom right of the results area.

Simply click the pencil icon next to a patient's name to [enter your notes](#).

Revision #4
